Environmental Law and Litigation

Brad Marten is a longstanding leader and innovator in environmental law, bringing his clients decades of experience handling complex environmental litigation and several of the largest environmental damages cases ever brought in the United States.

Brad has gained a national reputation by successfully representing clients in nearly every sector of the economy, across the United States for 40 years. These include several of the largest environmental damages cases ever brought in the United States and dozens of other cases and transactions for clients in mining, manufacturing, refining, transportation, food processing, agricultural and financial services industries. He served as co-counsel on both the Exxon Valdez oil spill (1989) and the Deepwater Horizon oil spill (2010).

Brad is consistently ranked by his peers as one of the top environmental lawyers in America, he is listed on Law Dragon's 500 Leading Lawyers in America, Chambers USA, Best Lawyers, and other peer reviewed publications. His leadership has brought Marten Law national recognition, with 15 lawyers practicing in four states.

REPRESENTATIVE MATTERS

- Representing parties in complex Superfund and natural resource damage environmental claims and litigation throughout the United States. These include dozens of federal and state Superfund sites in negotiation with EPA and the Justice Department, Natural Resource Trustees, state agencies, and Indian Tribes. Brad has successfully served as lead or common counsel at Superfund sites in over 15 states, in matters involving more than one hundred parties, and damages over \$1 billion.
- Defending permitting and enforcement actions brought against public and private companies in the retail, manufacturing, mining, food, waste and service sectors before state and federal agencies, including the United States EPA, Department of the Interior, and NOAA.
- Representing the principal contractor at a nuclear waste cleanup facility.
- Representing developers in addressing environmental concerns at projects involving over 40 million square feet of office space, as well as residential developments, commercial areas, transit facilities, golf courses, and timberlands.
- Advising clients on emerging issues relating to climate change law and regulation, including reporting requirements, SEC disclosure, permitting under the Clean Air Act, and litigation.
- Conducting environmental due diligence for dozens of companies in the manufacturing, real estate, food processing, and solid waste industries.
