Laws Go Orange -- Netherlands Latest  
to Pass Legislation." May 20, 2019

**Jack Lyman focuses his practice on environmental transaction support, with emphasis on the Clean Air Act, NEPA, the Clean Water Act, TSCA, and CERCLA.**

Jack Lyman is a Partner in Marten's Washington, D.C. office. He counsels clients on a wide range of federal and state environmental laws, including the Renewable Fuel Standard and Refinery Sector rule under the Clean Air Act, NEPA, Section 7 of the Endangered Species Act, Section 404 of the Clean Water Act, the Toxic Substances Control Act, and CERCLA.

Prior to Marten, Jack worked in private practice, and began his career as a trial attorney through the honors program at the Department of Justice's natural resources division in the environmental enforcement section. Jack earned his J.D. at the University of North Carolina School of Law, and earned his B.A. at the University of North Carolina at Chapel Hill.

**REPRESENTATIVE MATTERS**

- Counsel to technology company developing autonomous, all-electric delivery vehicles in compliance with CAA
- Counsel to petroleum refinery in compliance with obligations under CAA, CWA, EPCRA, and state fuels programs
- Counseled clients on how to define climate and ESG goals, set strategies, and develop and implement disclosure and reporting policies
- Counseled chemical manufacturer client around issues relating to circular economy, importation, and new use issues
- Advised publicly traded fuel and convenience retailer negotiating the purchase of a large portfolio of gas stations and convenience stores
- Counseled local parks and planning agency client in potential NEPA and related litigation for proposed highway expansion
- Advised transportation network company client on emerging federal and state regulatory frameworks regarding autonomous vehicles
- Counseled publicly listed energy and biotech clients on the discussion of environmental risks and disclosures in various SEC filings
- Counseled small refinery clients on compliance under and litigation related to the renewable fuel standard, as well as on air permitting and compliance matters
