J.D., Lewis & Clark Law School (2022)
M.S., Environmental Science, Brigham Young University (2016)
B.S., Environmental Science, Brigham Young University (2015)

ADMISSIONS & MEMBERSHIPS

Oregon State Bar

Bryce counsels clients on renewable energy and water quality.

Bryce is an Associate in Marten's Portland Office. He has experience with renewable energy, clean water and water quality, and Washington's Model Toxic Controls Act (MTCA). Bryce also has previous experience with the Resource Conservation and Recovery Act (RCRA).

Bryce recently graduated magna cum laude from Lewis & Clark Law School and was a summer associate with Marten in 2021. At Lewis & Clark he was an Associate Editor on the Environmental Law Review, an Environmental Law Fellow, and on the Scholar List. He also clerked at the Oregon Department of Justice, Trial Division. Prior to law school, Bryce was an Environmental Project Manager and Environmental Chemist, and received his M.S. and B.S. in Environmental Science from Brigham Young University.

REPRESENTATIVE MATTERS

- Counsel to municipal water provider in action for PFAS contamination of public water systems.
- Counsel to various current and former owners of contaminated land during cleanup negotiations with Washington Department of Ecology and other potentially liable parties.
- Counsel to mining company and hydroelectric facility for adequacy of National Environmental Policy Act review of projects on federal land.
- Represents multinational energy company in environmental compliance and due diligence matters in connection with acquisition of industrial facility.
